To sum up the philosophy and work of Zwirko & Ortmann Architects we would say we use forward-thinking with a respect for the past. Our architecture is characterized by both historical consciousness and an awareness of today's energy concerns.

Greg moved to Long Island in 1969, after graduating from Kent State University, to apprentice with his uncle, Alfred A. Scheffer, who'd been an architect in East Hampton since 1948. He worked side by side with his uncle until his death in 1976, developing a deep sense of history and an appreciation for the type of extraordinary interior detailing for which Scheffer was known. Greg brought in Bob Ortmann as an associate in 1980 and partnered with him in 1988.
